PROJECTS

1. Task Management App Tech Stack:

React.js, Tailwind CSS, Firebase (or LocalStorage) Description: A simple yet powerful task management app where users can add, edit, delete, and mark tasks as completed.

2. To-Do List App

Tech: React, Tailwind CSS, LocalStorage

A simple to-do app where users can add, edit, delete, and mark tasks as done. It saves tasks in LocalStorage, so they don't disappear when you refresh the page.

3. Weather App

Tech: React, OpenWeather API, Tailwind CSS

A weather app where users can search for a city and see real-time weather updates like temperature, humidity, and conditions. Uses the OpenWeather API to fetch data.
