Dear Mr. Achyut Sir,

I hope you're doing well. I'm excited to apply for the Database Administrator position at your company. With a strong passion for database management and a solid foundation in SQL, database design, and modeling, I believe I can bring value to your team.

I'm currently pursuing my BSc (Hons) in Computer Science, where I've worked on several coursework projects that have strengthened my skills in managing and optimizing databases. I love solving complex data-related problems and ensuring that systems run smoothly and efficiently. Beyond technical expertise, I enjoy collaborating with teams, learning new technologies, and finding innovative solutions to challenges.

Fluent in English, Nepali, and Hindi, I can communicate effectively in diverse environments, making teamwork and coordination easier. More than anything, I'm eager to apply what I've learned, grow within a professional setting, and contribute meaningfully to your organization.

I'd love the opportunity to discuss how my skills and enthusiasm align with your team's needs. Looking forward to hearing from you. Thank you for your time!

Respectfully,

Tilasmisubedi
