Game Director

Nintendo

Kyoto, Japan

Dear Shigeru Miyamoto-san,

I am writing this letter to express my interest in the Game Developer position at Nintendo. As a passionate game developer with over 4 years of experience in designing and implementing immersive gameplay experiences, I am confident in my ability to contribute effectively to your team. My dedication to creating engaging and fun games and my strong technical background makes me perfect for this role.

I have always admired Nintendo for its commitments to develop games with interactive storytelling and amazing gameplay. Your success with the Mario franchise inspired me to reach out, as I am eager to work with a team that consistently delivers high-quality, innovative games. I am particularly drawn to your focus on performance optimization and improving game mechanics, areas where I have significant experience and proven success.

Throughout my career, I have helped in the development of GTA 5 by optimizing game performances reducing CPU usage by 15% and maintain a consistent 60 fps across all available devices. I have also contributed to Riot Game's Valorant which is one of the most popular multiplayer 3rd person shooter. And successfully transferred an existing game from PC to mobile, maintain high graphics and performance for Hoyoverse's Genshin Impact and Honkai Star Rail.

I am very excited about the opportunity to join Nintendo and contribute to your success. I am available for an interview whenever you want and look forward to discussing how my skills and experiences can be valuable for Nintendo. Thank you for your time and consideration. I look forward to hearing from you soon.

Yours sincerely,

Rehaan Gurung
