Personal Profile

Passionate and attentive full stack developer with basic skills in both front-end and back-end coding. Enjoy creating user-friendly applications and websites while continuously seeking opportunities to expand my skills set. Highly capable at problem solving and working on creative projects.

Experience

Looking for my first full-time job as a full-stack developer. Gained practical experiences through academic projects.

IOT Smart Water Tank Project

Informatics College Pokhara, Matepani-12, Pokhara

- Developed an IoT-based Smart Water Tank system as part of a college project to monitor and manage water levels in a tank.

Projects:

Online shopping website: Developed a full functional e-commerce website as a part of academic project, incorporating user authentication, product listing and order management.

Achievement

- Successfully build and deployed web application, improving both front-end and back-end functionality .
