

Dear Achut Sir,

I hope this message finds you well. I am writing to express my interest in the Full-Stack Developer position at **Google**, a company I have always admired for its groundbreaking innovations and global impact.

I am currently pursuing my BSc.IT degree at Informatics College Pokhara (ICP), and over the past few years, I have developed a strong passion for web development. I have worked on several academic projects where I applied technologies such as **HTML, CSS, JavaScript, Django, and React** to build functional and responsive web applications. These experiences have not only strengthened my technical skills but also deepened my understanding of clean code practices and full-stack development.

What drives me is the excitement of solving real-world problems through technology. I enjoy tackling challenges, optimizing performance, and ensuring a seamless user experience from front-end to back-end. I am confident in my ability to quickly adapt, learn new tools, and contribute meaningfully to any development team.

Joining Google would be a dream opportunity—one where I could grow under the mentorship of brilliant minds while contributing my own skills and passion to meaningful projects. I am enthusiastic about the possibility of bringing my dedication and drive for continuous learning to your team.

Thank you for considering my application. I have attached my resume for your review, and I would be grateful for the opportunity to discuss how I can contribute to Google's mission.

Warm regards,

Bigyat Thapa
