## ABOUT ME

I'm a passionate database administrator who loves working with data and optimizing systems for efficiency. I enjoy designing databases, writing SQL queries, and ensuring data security. Always eager to learn and improve, I'm looking for opportunities to apply my skills in real-world projects.

## EXPERIENCE

### Database Design Project

- Designed and implemented a relational database for a college management system
- Create4d ER diagram and normalized database structures.

### SQL Optimization and Performance Tuning

- Developed efficient SQL queries to upgrade database performance.
- Worked on indexing and query optimization.
