Subject, Application for Full Stack Developer Position

I am enthusiastic about applying for the Full Stack Developer position. With a strong background in both front-end and back-end development, I am confident in my ability to contribute valuable technical skills and problem-solving solutions to your team and company.

Whereas, I have attached my CV for your review. I would appreciate the opportunity to discuss how my experience and abilities can align with and support the goals of your team.

Thank you for considering my application. I look forward to hearing from you.

Best regards,

Sasher Gurung
